Credits are counted in terms of semester hours. A semester hour of credit is awarded to a student for the successful completion of a course, which meets one hour per week for a semester. An hour is a 50-minute period. Each course indicates the number of hours of credit assigned to the course.

human deve

CT C

A minimum of 45 hours of work by each student is required for each unit of credit. An hour of work represents a minimum of 50 minutes of class time often called a "Contact-hour" or 60 minutes of independent study work. For lecture-discussion courses, this requirement equates to at least 15 contact hours and a minimum of 30 hours of work outside the classroom for each unit of credit. Even though the values of 15 and 30 hours may vary for different modes of instruction, the minimum total of 45 hours of work for each unit of credit is a constant.
